Changelog.....4

User Stories

1. As Harmony (TEQLIP project staff), I want to be able to create accounts (with username and password) for other TEQLIP project staff and participating organizations so that they can also access the system
2. As Eric (TEQLIP project staff), I want to upload different iCare templates so that data can be stored about different services
3. As Amy (participating organization volunteer), I want to download an iCare template from the application so that I can fill it out and upload it with my agency's data
4. As Amy (participating organization volunteer), I want to upload my agency's data from the past month (filled out .xls iCare templates) anonymously so that my agency's data can be kept track of by the application without others knowing that it is our data
5. As Pat (UTSC project staff), I want to view all the anonymized data from the agencies so that I can analyze it
6. As Eric (TEQLIP project staff), I want to execute a query on all the data so that I can generate a report
7. As Ethan (TEQLIP project staff), I want to build a query so that I can get the data I need easily without knowing SQL
8. As Harmony (TEQLIP project staff), I want to save a query so that I can easily gather the same data in the future for myself and others
9. As Eric (TEQLIP project staff), I want to generate .pdf reports that contain aggregated data from the agencies with a given query so that I can get the useful information I need from the pool of data
10. As Eric (TEQLIP project staff), I want to add columns to existing iCare templates so that we can store data on new fields
11. As Eric (TEQLIP project staff), I want to delete columns to existing iCare templates so that we do not store data on unnecessary fields
12. As Amy (participating organization volunteer), I want to see any errors or missing data before the uploading process finishes so that I can fix them and reupload
13. As Amy (participating organization volunteer), I want to be able to fix my errors or missing data and reupload so that I know that the data I upload is correct
14. As Harmony (TEQLIP project staff), I want to be able to delete accounts so that no longer authorized people can access the system and no unnecessary data is stored
15. As Harmony (TEQLIP project staff), I want the application to automatically send the login credentials of a newly created account to a given email address so that they can also access the system
16. As Amy (participating organization volunteer), I want to be able to change my password so that I can access the system with a password I can easily remember
17. As Amy (participating organization volunteer), I want to see a step-by-step guide on how to upload my agency's data so that I can minimize human error when uploading

- 18.** As Ethan (TEQLIP project staff), I want to see a step-by-step guide on how to generate a report so that I know how to properly convert data to useful information

Changelog

10/15/2018 – v0

- Initial version

10/27/2018 – v1

- Added a new user story
 - Ranked #3
